AGENDA ITEM 2: RUSA ACHIEVEMENTS

The Chair brought to the notice of the members of the PAB and the participating States about the progress made on RUSA since its inception. He specifically highlighted the improvements in the Student Teacher Ratio, increasing commitment by States to supporting Higher Education and the positive trend in recruitment of faculty. The attention of the States was drawn to increasing enrolment of students in Higher Education and lack of adequate infrastructure facility to match this increase. Consequently, there is a need for increasing financial support to improving infrastructure and other student centric facilities. Further, the States were urged to continue their commitment to increase their contribution to higher education as a percentage of their GSDP. He added that funding from RUSA should not be a substitute and should only be seen as a gap filling measure as far as States' funding to higher education is concerned. He, however, requested the States to ensure that the quality benchmark for faculty recruitment be maintained. The States were also advised to abide by the commitments given by them in the formation of the State Higher Education Councils through enactment by their State Legislature. The Higher Education Secretary strongly urged the States to give a fillip to the reform agenda of the RUSA initiatives namely, accreditation, affiliation, governance and administrative reforms.

He further alluded to the recent initiatives of MHRD in increasing capacity of the National Assessment and Accreditation Council (NAAC), so that the pace of accreditation of institutions can be improved significantly. He emphasized the need for States to undertake a periodic review of the NAAC status and progress of NAAC accreditation in States. He urged the States to share with the Department of Higher Education, MHRD a list of priority institutions whose accreditation is pending and awaited with NAAC. He also brought to the notice of the States about the recently launched National Institution Ranking Framework and urged the States to voluntarily get their institutions to participate in this framework. In doing so, the States should ensure that the reliability and accuracy of institutional data is maintained.

The National Mission Director informed the States about the component wise progress made under RUSA as against the targets sought to be achieved by the end of XIIth Plan. While, there has been significant progress achieved in certain components (some of which have exceeded the targets), in some cases the progress has not been satisfactory. She highlighted the need for States to actively submit the proposals under components, especially component 1 and 2. In this context, she also emphasized that in operationalizing these two components, the passage of an Act is a non-negotiable and necessary condition.

She emphasized the need for filling up of vacant faculty positions and urged the States to take the benefit of the faculty recruitment support, upon fulfilment of conditionalities. She expressed concern about the progress made on Component of equity initiatives and vocationalization on Higher Education and urged the States to participate more proactively in these areas. The States' attention was drawn to recent initiatives of the Ministry of HRD through MHRD regarding Kaushal Kendras and States were requested to work in tandem with this initiative in conceptualizing skill based proposals.

The Chairman discussed the States about the general improvement among various social groups in the Gross Enrolment Ratio and also encouraged the States to actively participate in the process of filling up AISHE data.

A. ANDHRA PRADESH

PAB Decision: PAB accorded approval for Creation of a Cluster University in Kurnool with Silver Jubilee Govt. College (A), Kurnool as the lead college and two other participating colleges, namely KVR Govt. Colleges (W), Kurnool and Govt. Degree College (M), Kurnool. Further, the State should provide the request for re-appropriating to the cluster university component already released amount by MHRD (not utilized so far) to these three institutions under Infrastructure Grant to these Colleges. Consequently these three colleges will be eligible for additional amount of 49 crores under the Creation of Cluster University component. As a result, the approval given to these three institutions under Infrastructure Grant to Colleges (approved in 6th PAB) stands cancelled.

The PAB also accorded approval for upgradation to 2 MDCs (8 crore) and the 16 Government Colleges for Infrastructure Grants to Colleges. (32 crore).

The PAB approved a total of Rs 89 crore for three components viz. creation of a cluster university (49 crore), Infrastructure grants to 16 Colleges (32 crore) and Upgradation to 2 MDCs (8 crore), namely GDC, Bheemunipatnam, Visakhapatnam and GDC, Repalle, Guntur.

out that there are no vacant seats in all existing Government Engineering Colleges and therefore, there is an unmet demand for engineering education in Government Engineering Colleges. The PAB considered the State representative's views and approved the setting up of 2 Engineering Colleges. The State was requested to decide on the location of the Engineering colleges and provide justification for the creation of government funded engineering institutions in Tamil Nadu to the NMD. The PAB also noted that the State of Tamil Nadu should look at ways of enhancing quality of private engineering institutions in light of the fact that there are large number of vacant seats in these engineering colleges.

ANY OTHER ITEMS WITH PERMISSION OF CHAIR

Maharashtra: The State Project Director, Maharashtra brought to be the notice of PAB the challenges being faced by the State of Maharashtra and other States in operationalizing the component no. 2 (Creation of University by Conversion of Colleges in a Cluster) upon PAB approval. She pointed out that the legislative process for enactment of university is time consuming and therefore the release of money from Govt. of India to States which have received approval for creation of a new university under this component should not be conditional in so far an enactment by legislative process is concerned.

She also requested the PAB to consider enhancing the 1st instalment of release from the current 25% to at least 40% in order for States to effectively implement the project in the initial phase.

PAB Decision:

Consequently, the PAB noted that an initial amount of 25% be released to the States as Central share upon approvals under both the components (Component 1 and Component 2) with a clear pre-condition that the State should enact the legislation within six months after release of the grant. However, the conditionality on submission of DPR would remain unchanged.

In so far as the enhancement of the fund release as 1st instalment is concerned, the PAB also endorsed the view.

Meghalaya: The NMD urged State of Meghalaya which was present in the Video Conferencing to hasten up the process of submitting their State Higher Education Plan.

The meeting ended with vote of thanks to the Chair, the participating States and members of PAB.
